

CYBERSECURITY SPECIALIST

Cybersecurity Specialist and United States Bilingual Marines Veteran holding an active Top-Secret Clearance, leveraging 8+ years of proven experience in network security, threat analysis, risk mitigation, and incident response. Adept at developing and implementing cyber defense strategies, security policies, and compliance frameworks to protect organizations from cyber threats and data breaches. Known for proactive threat hunting, vulnerability management, and expertise in industry Risk Management Framework (RMF) controls. Committed to staying ahead of emerging cyber threats and ensuring robust security operations. A career supported by the pursuit of a Bachelor of Science degree in Information Technology and Security, certifications, and various experiences.

- Security Compliance
- System Security
- Data Protection
- Risk Mitigation
- Operating Systems
- Cyber Threat Prevention
- Systems Maintenance
- Configuration | Installation
- Identity Management

KEY SKILLS

Compliance Frameworks: RMF (NIST 800-37), NIST 800-53 Rev 4/5, (PHI) NIST Privacy Framework, CNSSI 1253, STIG/SRG.

Vulnerability Management: ACAS (Nessus), SCAP Compliance Checker, Evaluate-STIG, eMASSter, STIG Viewer, Vulnerator.

Security Awareness Training & Policy Development: Developed security awareness programs to educate employees on best practices, phishing prevention, and social engineering threats.

Tools & Platforms: eMASS, VRAM, HBSS, OOMA NALCOMIS, AWS Cloud.

Documentation: POA&M Management, System Security Plans (SSP), SAR/RAR, Incident Response & Contingency Planning.

EDUCATION

Bachelor of Science (B.S.), Information Technology and Security | Campbell University

CERTIFICATIONS

Certified Information Systems Security Professional CISSP #921058 | Certified Information Security Manager CISM #221843622 | Certified GRC Engineer - Practitioner (CGE-P) | AWS Certified Cloud Practitioner | AWS Certified AI Practitioner | AWS Cloud Quest: Generative AI Practitioner - Training Badge | CompTIA Security + Certification | Windows Operating Systems Fundamentals Certification

PROFESSIONAL EXPERIENCE

COLSA & Naval Air Warfare Training Systems Division | Various Locations

7/2020 – 9/2025

Senior Cybersecurity Supervisor

Supervised security operations for complex, mission-critical training and operational systems within federal contracting environments. Partnered with program management, engineering, and government stakeholders to integrate security throughout the system lifecycle.

- Supervised information systems security operations supporting 20+ cybersecurity analysts and system security representatives, ensuring consistent execution of security controls and compliance activities
- Successfully managed the RMF lifecycle for multiple mission-critical applications, conducting pre/post-assessment reviews that led to consecutive ATO approvals
- Led end-to-end Quality Assurance (QA) reviews of all RMF cybersecurity artifacts within eMASS prior to Authorizing Official (AO) review and approval, ensuring compliance, accuracy, and audit readiness across multiple DoD authorization packages
- Directed Risk Management Framework (RMF) implementation across multiple training and operational systems, overseeing control selection, assessment, authorization, and continuous monitoring

Naval Medical Center Camp Lejeune | Camp Lejeune, NC
Information System Security Officer**7/2018 – 7/2020**

Led cybersecurity governance, risk management, and compliance activities in support of classified and unclassified defense programs. Provided cybersecurity leadership for integrated programs supporting cybersecurity, engineering, and Information Technology (IT) personnel, which included ISSOs, system engineers, and contractor teams.

- Served as primary cybersecurity advisor to program managers, system owners, engineering teams, and senior leadership across NMCCCL
- Coordinated cybersecurity incident response activities, impact analysis, and corrective action planning to protect sensitive data and mission systems
- Oversaw development and maintenance of System Security Plans (SSPs), Security Assessment Reports (SARs), POA&Ms, and executive-level cybersecurity briefings
- Mentored ISSOs and cybersecurity staff, promoting best practices, compliance discipline, and workforce readiness in high-consequence environments

Naval Medical Center Camp Lejeune | Camp Lejeune, NC
Information Security Analyst & Systems Administrator**7/2016 – 7/2018**

Secured, administered, and supported enterprise Information Technology (IT) systems within a regulated medical environment. Balanced security requirements with operational availability to support clinical, administrative, and operational missions.

- Implemented and maintained cybersecurity controls protecting 2K+ end users across clinical and administrative systems, handling sensitive healthcare and operational data
- Administered Windows-based servers, workstations, and networked systems, ensuring availability, patch compliance, and configuration integrity
- Managed account provisioning, role-based access, and deactivation processes to enforce least-privilege access and protect patient and operational data
- Delivered Tier I–II technical support for clinical staff, administrators, and leadership, resolving hardware, software, and access issues

Naval Medical Center Camp Lejeune | Camp Lejeune, NC
IT Support Assistant**12/2015 – 7/2016**

Provided frontline computer and systems assistance in a regulated healthcare environment. Resolved technical issues efficiently while maintaining data security, patient privacy, and compliance with federal and healthcare IT standards.

- Provided technical assistance to 1K+ clinical and administrative users, resolving issues related to desktops, laptops, printers, scanners, and peripherals
- Supported installation, configuration, and deployment of workstations and devices for new staff and departmental upgrades
- Supported systems used in clinical and administrative workflows, ensuring minimal disruption to patient care and operations
- Followed cybersecurity best practices and data protection procedures aligned with healthcare and federal IT requirements

ADDITIONAL MILITARY AND PROFESSIONAL EXPERIENCES

Strategic Resources Inc. | IT Hardware Specialist
NC Department of Commerce | Administrator Assistant
United States Marines | Aircraft Maintenance Administration Specialist

TECHNICAL COMPETENCIES

Security Frameworks: RMF | CUI | FISMA | NIST 800-53 | NIST 800-37 | NIST SP 800-171
Operating Systems: Networking | VMware | Windows Server | Active Directory | Group Policy | DHCP |
Windows Workstation | Linux

Tools: eMASS | ACAS | Nessus | HBSS | VRAM, | SCAP | Vulnator | STIG Viewer | Evaluate-STIG | eMASSter
